- Click to view Lasernet FO Connector 6.18.3 New Features

- Click to download the Lasernet FO Connector 6.18.3 Installation Package

Note

- The packages are for Dynamics 365 for Finance & Operations Platform Updates PU55, PU56 and PU57.

- It is unnecessary to install a new package when upgrading Dynamics 365 for Finance & Operations. The original Lasernet Connector installation will work after the upgrade of PU.

- Microsoft recommends that you use an ISV/LAC-package matching the build or PU because it could lower the memory usage. However, all packages contain the same code and are compatible with different versions.

- Deployments or installations of Lasernet Connector packages are forward compatible; for example, it is not possible to deploy or install a Lasernet Connector package for PU55 when using Dynamics 365 for Finance & Operations PU49 or PU50.
