Updated Lasernet with Dynamics FO Course for Partners Released

2025-05-22 - Sunil Panchal - **Comments (0)** - **General**

As part of our ongoing partner enablement, we are happy to announce that an update to the *Lasernet with Dynamics FO - Basic Training* course is now available!

This updated course is a replacement for the 2024 version of the course, featuring updates to existing modules and new content. If you are still progressing in the 2024 course, you will be able to continue your learning in this new 2025 course.

You can self-enroll on the course at the [Formpipe Partner Academy](#) from Friday 23rd May.

Course Overview

Module 1: Installation

- Introduction to Module and Learning Outcomes

- Install Lasernet for the Training Sessions

- Installation Guide

- Knowledge Check

Module 2: Introduction

- Introduction to Module and Learning Outcomes

- SSRS Report

- Benefit of using Lasernet reports instead of SSRS reports

- Overview of the Lasernet architecture for Dynamics 365 FO

- Purpose of the Lasernet Connector and Lasernet

- Lasernet Reporting Capabilities

- Lasernet Archiving Capabilities

- Knowledge Check

Module 3: Generating a Lasernet Report

- Introduction to Module and Learning Outcomes **(Updated 2025)**

- Overview of the XML files Generated from Dynamics 365 FO **(Updated 2025)**

- Generating an Out-of-the-Box Lasernet Replacement Report

- Adding a new field to the Lasernet Replacement Report

- Using Display Methods in a Lasernet Report

- Adding a new field with help from the Table Browser

- Creating a Lasernet Report for a SSRS Report which is not included

- Creating a custom Lasernet Query Report

- Lasernet Archive

- Labels, Language Texts and Report Groups **(Added 2025)**

- Knowledge Check **(Updated 2025)**

Module 4: Query Wizard Functionality

- Introduction to Module and Learning Outcomes **(Updated 2025)**

- Tables and Fields

- Sort Fields

- Default Ranges

- Group Data into Files

- Using Multiple Tables in a Table Relation **(Added 2025)**

- Knowledge Check **(Updated 2025)**

Module 5: FO Connector Expressions

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Overview of Expressions **(Added 2025)**

- Calculated Values **(Added 2025)**

- Code Expressions **(Added 2025)**

- System Functions **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 6: FO Connector Functionality

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Form Links **(Added 2025)**

- Alert Links **(Added 2025)**

- Printing Lasernet replacement reports in a batch job **(Added 2025)**

- Printing custom Lasernet queries with a batch job **(Added 2025)**

- Attachments functionality **(Added 2025)**

- Document handling functionality **(Added 2025)**

- Review before sending functionality **(Added 2025)**

- Add DocuRef Notes to a report **(Added 2025)**

- Query Links - Add company info to reports **(Added 2025)**

- Generating SSRS reports using Lasernet **(Added 2025)**

- Dialog setup **(Added 2025)**

- Performance indicators **(Added 2025)**

- Regional formats **(Added 2025)**

- Security roles for using the Lasernet functionality **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 7: Lasernet Functionality

- Introduction to Module and Learning Outcomes **(Updated 2025)**

- Overview of the Lasernet Config Server (Formpipe hosted instances) **(Updated 2025)**

- Overview of the Lasernet Config Server (Non-Formpipe hosted instances) **(Updated 2025)**

- Add users on the Lasernet Config Server **(Added 2025)**

- Overview of the default Lasernet Developer configuration for D365FO (Formpipe Hosted Instances) **(Updated 2025)**

- Overview of the default Lasernet Developer configuration for D365FO (Non-Formpipe Hosted Instances) **(Updated 2025)**

- Overview of the Forms Module **(Updated 2025)**

- Overview of the Lasernet Monitor **(Added 2025)**

- Using subforms to apply company info and a logo to multiple forms **(Added 2025)**

- Using Criteria to hide rearranges under different circumstances **(Added 2025)**

- Using a start pattern criterion to create a tax breakdown section **(Added 2025)**

- Regional Profiles **(Added 2025)**

- Knowledge Check **(Updated 2025)**

Module 8: Print Destinations - Introduction

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Overview of the Lasernet print destinations **(Added 2025)**

- Lasernet print buttons **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 9: Print Destinations - Email

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Email Configuration - Microsoft Graph API **(Added 2025)**

- Email Configuration - SMTP **(Added 2025)**

- Using email as a print destination **(Added 2025)**

- Lasernet predefined destinations (Email) **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 10: Print Destinations - Printers

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Cloud Print Connector **(Added 2025)**

- Using a printer as a print destination **(Added 2025)**

- Lasernet predefined destinations **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 11: Lasernet Backups and Configuration Migration

- Introduction to Module and Learning Outcomes **(Added 2025)**

- Overview of the Lasernet backups and configuration migration **(Added 2025)**

- FO Connector backups **(Added 2025)**

- Lasernet Developer backups and configuration migration **(Added 2025)**

- Knowledge Check **(Added 2025)**

Module 12: Frequently Asked Questions (FAQs)

- Frequently Asked Questions (FAQs) **(Updated 2025)**
